REGISTER YOUR LETTERS. We suggest that while a Post Office Money Order is an absolutely safe way of sending money by mail, but in case letter containing same should be lost in the mails it takes some time to get a duplicate, and this delay is annoying to our customers. So please **REGISTER ALL YOUR LETTERS.** The following is what the Post Office says on this point:

INSTRUCTIONS AS TO REGISTRATION, ETC.—Postmasters should advise their patrons to register all valuable matter sent in the mails. It will thus receive protection which it is not always possible to give if sent in the ordinary mails.

The Department will pay an indemnity for registered letters mailed at and addressed to a United States post office, which are lost, not to exceed the value of the contents, up to ten dollars.

Every postmaster is obliged to register mail matter that is properly prepared and offered at the post office for registration.

Postmasters are forbidden to address mail matter for the patrons of their post offices, to inclose it in the envelope, seal it, or affix the stamps.

PUBLIC NOTICE. We beg to inform our customers and the public generally that a number of firms in New York, Chicago, and elsewhere have been copying our catalogue. These firms cannot supply all the goods they advertise; so that, if you should be foolish enough to send them money, you will discover to your cost, that you will not receive the goods you sent for, but some miserable substitute. So beware of any and all catalogues which have illustrations which are an exact copy of ours.

HOW TO SEND MONEY BY MAIL. If your order is less than one dollar we advise you to go to the post office and buy one-cent or two-cent postage stamps. We prefer two-cent postage stamps to any other kind. So be kind enough to always send two-cent postage stamps whenever you can, but we will take any kind, such as the five and ten-cent kind, which you will then send us in your letter. If the amount is over one dollar and under two dollars our advice is to send us a one dollar bill and make up the odd change in postage stamps, or you can buy a Money Order for three cents, or you can send an Express Money Order if you live at a money-order office. Always send a Money Order when you can. Remember, a money order under two dollars and a half only costs three cents, and if it gets lost you can always get a duplicate. Never put money or postage stamps in a letter in the presence of any person connected with the post office. For amounts over two dollars we advise you to put your money in a letter, making up the odd change with postage stamps, and then have the letter registered, or you can send a money order or a draft on New York. We will take any kind of postage stamps up to five dollars in payment for any goods advertised in our catalogue, but we always prefer money. We use over thirty thousand dollars a year in postage stamps in sending out packages, catalogues and letters, so that we might as well use that amount from our customers as to buy them from the post office; but when we get over that amount we have to sell them at a small discount. We are willing to take them, but only when our customers find it necessary to send odd change, or to send stamps in place of silver dollars, the latter being bulky and dangerous to send through the mails.

HOW TO SEND AN ORDER. Write your name, town, county, and State as plain as print. State what you want and the amount you inclose. Then seal and stamp and address envelope very carefully. We have done an immense trade through the mails for a great many years past, and from this long experience we think we can do that kind of business thoroughly. Our customers generally find this out to be true when they try other houses, for they always come back, which is a good sign. It may appear a simple and easy task to put up a package, write on it the purchaser's name and address correctly, and put it in the post office. So it would be if all persons who send would write plainly and give their address properly. But here the difficulty lies. A good many people do not try to write plainly: others neglect to give their full address, and some forget even to sign their names to their orders. When we get an order that is obscure or uncertain, we write to the person sending it for an explanation; and where the writer has neglected to sign his name we notify the postmaster, who generally manages to find him out. We receive so many letters every day that it is impossible for us to remember the post office, county and State of any particular person. No matter how often you write, put on a plain direction where we are to send the goods—Name, Post office, County and State.

OUR TERMS. On all orders amounting to \$2.00 or less we require cash in advance, and on all goods that are to go by mail. On all C.O.D. orders amounting to \$10.00 or less we require \$5.00 as a guaranty that goods will be promptly taken from express office. Under no circumstances will we send goods C. O. D. unless enough cash comes with the order to cover the express charges both to your point and back again. This amount we deduct from your bill, and you pay the balance when you receive the goods. No goods can go by mail C. O. D. Remember, agents, it never pays you to have goods go C. O. D., as the express companies will charge you for bringing back the money to us, and usually they charge extra expressage on C. O. D. packages. The Adams Express and other companies will not take anything under \$5.00, C. O. D., to far-off points. On all C. O. D. orders over \$10.00, twenty per cent. of the full amount of the bill must accompany order. Full amount of cash must be sent with all orders from Canada, Louisiana, and Texas, or West of the Mississippi river.

CUSTOMERS ALWAYS PAY EXPRESSAGE. WE NEVER pay express charges on the goods we send by express. The customer always has to pay them. The reason for this is plain. It is because we sell all goods that go by express much cheaper than when we send them by mail, and we do this because the customer always has to pay the expressage.

COSTLY PRESENTS FOR YOU. On the last two pages of our catalogue you will find a list of presents or premiums we send our customers. But we will not send any premium or present to any person who does not send the postage and packing expenses as stated very clearly. Don't forget this.

YOUR NAME. We ask, as a special favor, when you send us an order, that you write your name, especially your surname, as plain as possible. Most people write their order and address and their full Christian name very plainly, but most people, even good writers, write their last name so that you cannot read it. It looks plain to them, but nobody else can read it. We ask this favor on your account as well as our own. You cannot write your name too plainly.

BE SURE AND READ THIS.

Many of our customers make the **GREAT MISTAKE** of ordering goods at mail prices and also at express prices in the same order. **This you must never do.** If you want the goods to go by mail, you must send mail prices, then we will send the goods by mail, and we pay all the postage. If you want them to go by express, you get the goods cheaper, but you pay all the expressage. Please don't make the mistake of mixing up your order in this way, as we cannot and will not fill it. **Remember,** if you want them to go by mail, then all the prices must be mail prices. If you want them to go by express, then all the prices must be express prices. **WE WILL NOT** sell less than half a dozen of any of our goods at dozen prices. There is no use in trying. We won't do it.

TO PARENTS:—We wish to call attention to the fact that our catalogue can be placed in the hands of any boy or girl, as it contains nothing which the most religious or refined parents could object to their children buying. Furthermore, we never sell the names and addresses of our customers. Other mail firms will sell your name and address to nasty patent medicine houses, who would send to your innocent children circulars unfit to read.

SOLID GOLD AND ROLLED GOLD RINGS.

We direct your attention to this splendid line of rings. These rings are warranted either solid gold or rolled gold, just as they are described, and are now offered to every reader of this catalogue at the following remarkably low prices. We know that these rings are sold at three times the prices we ask, but we believe in small profits and large sales. If you want cheaper jewelry, you will find it elsewhere in our catalogue; but if you want handsome goods and warranted, we can recommend these as the best and cheapest in the market.

SPECIAL NOTICE.—Jewelers need not write asking us for better prices on our jewelry, for these prices are our very lowest. Jewelers can double their money selling our goods. We want to fill your orders promptly and carefully, and we ask you, as a kind favor, that you will be particular about your size; also, when you have received your ring or other goods, that you will speak a good word for us to your friends. You will notice we have rings at all prices, and you can rely that our price in every case is lower than you can buy elsewhere. In ordering any ring advertised by us, be sure to give the number just as we print it. **Don't** send for sizes 11 or 12 in ladies', misses', or children's rings. These large sizes come only in gentlemen's rings.

READ THIS SPECIALLY.—A Solid Gold Ring is a ring every part of which, from the outside to the last particle inside, is solid gold. A solid Rolled Gold Ring is a ring the outer and inner exposed parts of which are solid plates of solid gold, but the interior substance of which is alloy.

HOW TO FIND YOUR RING SIZE.

Cut a piece of stiff paper the exact length so that the two ends will just meet around the finger on which you are going to wear the ring. Then stretch it along the different black size strips on this page until you find one the same length, or one as near as possible. This one will show you your ring size number.

Number 171 IMITATION GOLD WATCH.

We are now offering for sale the very finest **Imitation Gold Watch** in the market. It is so handsome that a gentleman wearing one of our watches will always get credit for wearing a solid gold watch. Our former price for this watch was **twelve dollars**, but owing to the great light going on between the watch companies, who are getting watches away below former prices, and propose to give our customers the benefit, we notice that many novelty firms are still charging ten and twelve dollars for watches in every way inferior to ours. We have many thousands of testimonials proving that we give the greatest value for the least amount of money of any **mail firm** in the U. S. We print a few of these testimonials. Our imitation gold watch looks exactly like a gold watch. The hunting cases of these watches are strong, massive, and exceedingly handsome, being turned and engraved by the most perfect automatic machinery. The faces are exactly the same as used in two hundred-dollar gold watches. The works contain the very latest improvements, all tending to improve the time-keeping qualities in every respect. These works are **genuine AMERICAN** works of high standard. Conductors, watchmen, policemen, professional and business men generally will appreciate the reliability and durability of our splendid **Imitation Gold Watches**. We are offering these magnificent watches at the **low price of Four Dollars** each. We have no better price if you took a hundred. Do not waste time asking for lower rates. We cannot get this price lower for this watch. We could go out and buy a brass watch for you, and sell it to you for four dollars, and make a good profit; but we are not selling that kind of watch. Our watch can easily be sold for twelve dollars. We are offering you big value in this watch, and if you appreciate your money's worth, why, here it is. Our **Imitation Gold Watch** is a stem-winder.

Number 172 LADIES' IMITATION GOLD WATCH.

This lovely watch has a fine **AMERICAN** movement, and is an exquisite specimen of a ladies' hunting-case watch, both in appearance and quality. It has the same quality of case as our great gentleman's watch, electro-plated with the same solid 14k. gold. Fitted with the **genuine AMERICAN** movement as described above. This is an entirely new article, gotten up by us especially in answer to the repeated demands from our patrons, owing to the success and unprecedented sale of our gentleman's size. They come handsomely engraved, and a very attractive, low-priced, reliable article for a lady. To introduce them we have put them at a specially low price.

Number 173 WATCH, SOLID GOLD-FILLED CASE.

This is a twenty-dollar watch, but it is sold by us for just half price. A solid gold-filled case is the only substitute for a solid gold case. It wears for many years same as a solid gold case, as it is made from thick plates of solid gold, stiffened between with a plate of composition metal. It is a hunting case, finely engraved, with a stem-winder and a stem-setter. The movement is a genuine **AMERICAN** make, an Elgin. Its movement is thoroughly tested before leaving the factory. It is warranted a perfect timekeeper. It is full plate, gilded, seven jewels, compensation balance, quick train, and patent safety pinions. We guarantee safe delivery.

SAMPLE, by mail, postpaid..... **\$10.00**

Number 864 NECKLACE.

This grand necklace consists of nearly three hundred white pearls and turquoise beads, one hundred and fifty white pearls, and one hundred and fifty blue turquoises, strung on strong elastic. It has a large turquoise center clasp. It is one foot long; we only show a piece of it. It is now very fashionable. It has three strands, and by doubling it you can make a six-row lovely bracelet, should necklace cease to be fashionable. The beautiful beads can be used on all kinds of fancy articles and embroidery, as pearls and turquoises are always lovely. This necklace has been sold at one time in Paris for fifty cents; we sell it for twelve cents.

ALUMINUM MATCH BOX.

This box is made from the new popular metal, Aluminum. A triumph of American inventive genius and skill is our New Aluminum Metal Pocket

Match Box, without a rival in the market, and selling faster than any old-style match box ever did before. It is of an entirely new design, manufactured with the greatest care. The beauty of the metal in this box is dazzling, and it will not rust or tarnish, while each is figured in a thoroughly artistic manner with a beautiful pattern. It is roomy, holding a large number of longest matches, and the lid works smoothly and surely, being kept shut or open by a strong spring inside the box.

HOHNER HARMONICA.

We are the only firm in the United States that sells genuine Hohner Harmonicas at these low rates. It has taken the first prize at the World's Fairs and Exhibitions. Every professional musician knows the magnificent musical qualities of this superb instrument. It sells for fifty cents; we sell it for a quarter.

EMMET'S FAULTLESS HARMONICA.

This new Harmonica is the latest triumph of musical manufacture. It is the result of the combined efforts of the leading manufacturer of Germany and the best professional player of America, the former the leading musical manufacturer of the world, and the latter the finest harmonica player living. These two gentlemen succeeded in inventing Emmet's Faultless Harmonica, and added new improvements, so that only this harmonica takes a place in the great orchestra. The reeds are made from bell metal (silver tone). The plates and covers are very thick solid brass, extra heavy nickel-plated. Now mark the great improvement. The top plate is curved toward the back into the same shape as the bell of a cornet. This enables the sound to come out with twice the volume of any other instrument as well as increasing its clearness and musical quality. Each and every instrument is guaranteed standard pitch. The best letter to order is letter C, as C is the natural key in music. Emmet's Faultless Harmonica has many points of excellence too numerous to mention here. Being one of the American syndicate which controls it, we have reduced the price to Fifteen Cents.

LONDON NEEDLE CABINET.

Needle Cabinet is nearly a foot long when opened. It is elegantly lithographed in beautiful colors. It contains five papers of needles and a full assortment of embroidery and darning needles of all kinds. It sells for twenty-five cents, and at the price we charge, agents can sell an enormous quantity at a tremendous profit. Agents will kindly compare our prices with those of other firms who are imitating our catalogue, and see how well we are treating you.

GOLD-EYED NEEDLES.

We are offering the finest needle in the world for the money. Our needles are gold-eyed and cloth-stuck.

Each eye is drilled egg-shape and gold-plated. Every woman knows the superiority of each needle being stuck separately in a piece of cloth, as ours are, instead of being thrown in loose in a piece of paper, so that when you open the paper half of them get lost.

The price that needles are generally sold for is five cents a paper, and in many places even higher. Our price is under two cents a paper if you buy one thousand at a time, which will cost you only 75 cents by mail, postpaid. A paper of needles has twenty-five needles so that a thousand needles is equal to 40 papers. We keep all the following needles: 1, 2, 3, 4, 5, 6, 7, 8 and 9, 1 to 6, 3 to 9, 5 to 10.

COMPOUND MICROSCOPE.

French manufacturers have been long experimenting over this glass, and have finally accomplished the task of producing a powerful magnifier at a popular price. This glass will serve the purpose of a microscope and a reading glass combined. **Its value:** This instrument is a valuable one for bankers in examining counterfeit money, detecting emasures, raised checks, drafts, etc.; the merchant in examining goods, fabrics, etc.; for the prospective miner in examining quartz; the agriculturist in examining soil, seeds, vegetable fiber, etc.; and for the little ones at home as a source of evening amusement and entertainment. The magnifier closes and opens.

"UCANFINDME" PENCILS.

FIVE CENTS EACH.

"Ucanfindme" means you can find me. This combination consists of a full length pencil (or engraving only shows a little piece) with a fine rubber eraser at the end. On each and every pencil is our new patent pencil attachment, which prevents the loss of the pencil. This attachment can be put anywhere outside of coat or inside of vest pocket. It is such a perfect attachment that it will hold the pencil firmly down to less than an inch. It is a wonderfully useful invention. The pencil being a regular first-class ten-cent pencil, see what a bargain you have—a ten-cent pencil and a ten-cent patent pencil-holder, all for five cents. Wide-awake agents can make a good living off this pencil alone.

MUSTACHES, FIVE CENTS.

The face of a person wearing one of these cannot be recognized by one's most intimate friend. We make two qualities, one kind on wire, and one kind where the hair is woven into silk gauze. The ones on wire we recommend to agents and stores, because they can be fastened to the face in an instant and just as easily taken off, and also because the price will afford you a big profit.

LYNN DENTIA.

LYNN DENTIA comes in the shape of a tablet. It is the result of a discovery by a great dental surgeon, and is the grandest preparation in the world to whiten the teeth, harden the gums, and purify the breath. It does all this without the least injury to the most delicate teeth. It contains all the best elements of the high-priced French powders, pastes, and one-dollar elixirs, but in addition it contains the active principles of Eucalyptus and Thymol, which in combination produce the safest and most efficient antiseptic in the medical world. So if you wish white, polished, pearly teeth, healthy pink gums, and a breath like crushed violets, order a tablet of Lynndenta. All you have to do is to rub the toothbrush on the tablet, and instantly a delightful cream is produced.
